

HURFORD ROASTED

QUALITY KILN DRIED TIMBER

*Hurford Roasted is about creating
a luxurious style when it comes to
Australian hardwood flooring.*

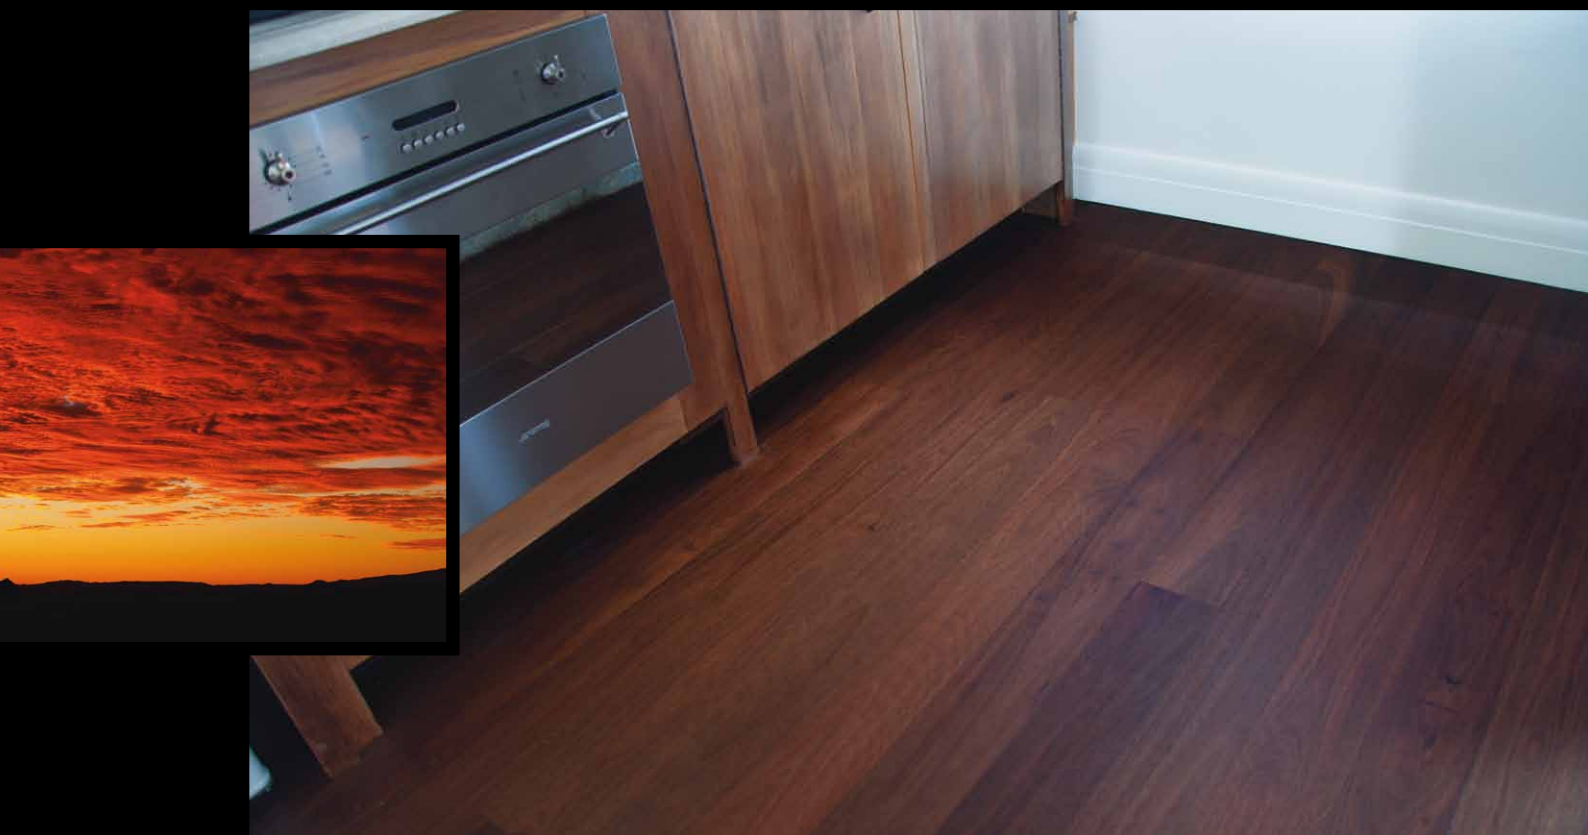

The Hurford Roasted process metamorphosis the natural colour of hardwood to create a deep rich tone that penetrates through the wood.

Hurford Roasted is available in two distinctive tones:

Peat: a natural dark earth hue.

Cayenne: an intimate reddish bronze palette.

Hurford Roasted is a high temperature thermally modified hardwood that uses a custom designed heating program to alter the woods molecular structure. This has many benefits that include locking in the colour, increasing the durability and limiting movement to a fraction of normal kiln dried flooring.

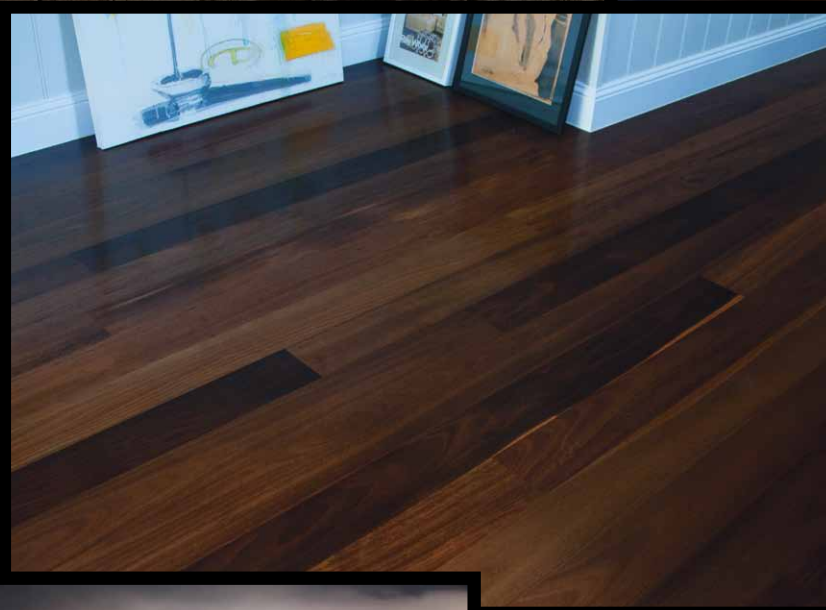

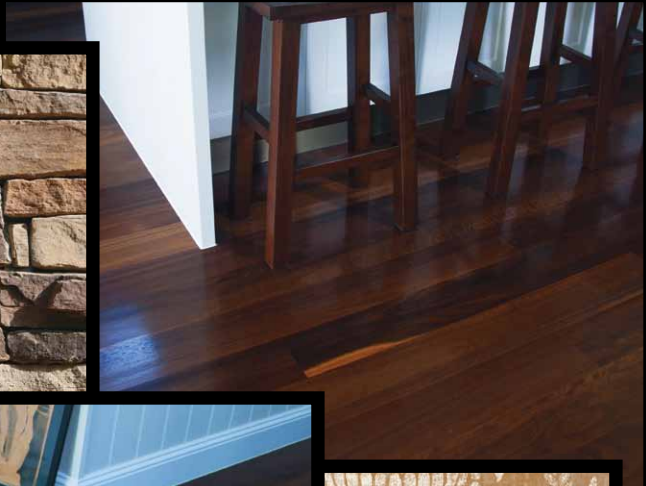

A modern living room featuring a white sofa with blue patterned and solid blue pillows. To the left, a wooden staircase with a glass railing leads up. The floor is made of dark wood planks. The word "Roasted" is written in a white, elegant cursive font across the top of the image.
